

What really matters in life is something you often only

come to realise in retrospect. Ernst Peter Fischer had a remarkable school-teacher who gave him and the rest of his class words of advice which equipped them for life. Now, almost 40 years later, Ernst Peter Fischer has come to realise that it was precisely these guidelines that set a course for his life and proved to be invaluable in times of need. They contain everything you need to know as regards the basics that will enable you to navigate your way through life. In a deliberate attempt to stimulate debate, the book invites us to abandon all our current frenetic but ultimately futile activity, placing the emphasis firmly instead on what really matters in life.

→ Concise and to the point – indispensable advice for life from the author of the best-seller »The Other Education«.

Ernst Peter Fischer, born in Wuppertal in 1947, is a science historian and journalist, who contributes to »GEO«, »Bild der Wissenschaft«, »Weltwoche« and »FAZ«, amongst others. He is Professor of the History of Science in Constance and was editor of the »Mannheimer Forum« from 1989 to 1999, succeeding Hoimar von Ditfurth. He has written numerous books, including »The Einstein Pocket Reader«, »The Other Education« and »Erring is Comfortable«. Read more on www.epfischer.com.
