

Learn all about Austrian history and the private lives of its great figures from a renowned authority

"**Tu felix Austria nube!**" Led by this motto of an exceedingly successful marriage policy, the Habsburgs managed to consolidate their power and extend their empire over the centuries. Of course this venture was not always peaceable, and the struggle for crown and sceptre was a fierce one, as Sigrid-Maria Gröbning vividly describes in this new volume of her bestselling historical series. She portrays great moments in history with the in-depth knowledge and absorbing details that we have come to expect from her. Giving us an intimate glimpse into the private lives of Europe's great historical figures, **Gröbning succeeds in reviving the spirit of bygone times.**
